CAREER OBJECTIVE

Aspiring AI/ML Engineer and Data Analyst with hands-on experience in Machine Learning, Data Visualization, Python, and MERN Stack Development. Skilled in developing intelligent web applications, analyzing data to derive actionable insights, and implementing end-to-end solutions. Eager to contribute technical expertise, problem-solving abilities, and a continuous learning mindset to a forward-thinking organization.

EDUCATIONAL QUALIFICATIONS

- Pursuing B Tech in **Computer Science and Engineering (AI)** at GIFT Autonomous Bhubaneswar affiliated to Biju Patnaik University of Technology with a CGPA of **8.95**.
- Completed intermediate (**12th**) from RIHS, Bhograi from **CHSE** Board in the academic year 2023 with **77%**.
- Completed Matriculation (**10th**) from PC high school, Kachuadi from **BSE** Board in the academic year 2021 with 86%.

TECHNICAL SKILLS

- **Programming Languages:** Java, Python, SQL
- **Frontend Technologies:** HTML5, CSS3, React.js
- **Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Data Analytics & Visualization:** Pandas, NumPy, Matplotlib, Seaborn, Excel, Data Cleaning, Data Analysis
- **Artificial Intelligence & Machine Learning:** Machine Learning, Deep Learning, Scikit-learn, TensorFlow, Keras, OpenCV, Generative AI
- **Data Science Tools:** Jupyter Notebook, Google Colab, Anaconda
- **Development and deploys:** REST APIs, Flask, API Integration, Render / Railway / Vercel (if used), Postman

ACHIEVEMENTS

- Finalist- BPUT Project Exhibition
- Best Intern of the Month -3Skill
- Achieve NPTEL **Certification** in “**Industry 4.0 and Industrial Internet of Things**” from **IIT Kharagpur** with 62%.

WORKSHOPS

- Successfully completed a **3-Day Industry-Oriented Software Testing Workshop** conducted by **Tata Consultancy Services** at GIFT Autonomous.

INTERNSHIP EXPERIENCE

1. AI/ML Trainee – AI Industry-Oriented Course (Microsoft, Nirmaan & Redington Collaboration)

02/02/2026- 30/4/2026 (90 day)

- Continuing industry-oriented training in Artificial Intelligence, Machine Learning, Deep Learning, NLP, Generative AI, AI Deployment, and MLOps.
- Participated in project-based learning and industry case studies to understand real-world AI solutions and deployment workflows.

Technologies: Python, Machine Learning, Data Analysis, Scikit-learn, TensorFlow, Generative AI

2. Internship in AI/ML at CTTC, Bhubaneswar

02/06/2025 - 30/6/2025(30 days)

- Gained hands-on experience in **Artificial Intelligence and Machine Learning fundamentals**, including data preprocessing and basic model building.
- Worked Smart Attendance System with real-world datasets to understand feature selection, data cleaning, and model evaluation techniques.

Technologies: Python, Machine Learning, Data Analysis

3. Internship in JAVA at OCAC, Bhubaneswar

01/07/2024 - 14/07/2024(30 days)

- Worked on core Java programming concepts, including object-oriented programming, classes, and exception handling.
- Developed small Java-based applications to strengthen problem-solving and logical thinking skills.
 - Gained exposure to real-world software development practices and structured coding standards.

Technologies: Java, OOP Concepts

PROJECTS

1. Krushi Sathi – Digital Platform for Farmer Empowerment

- Developed a farmer-centric digital platform providing agricultural information, crop guidance, and farming resources.
- Promoted rural digital inclusion and supported sustainable farming through technology-driven solutions.

Technologies: React.js, Node.js, MongoDB, REST APIs, Database Management.

2. AI Career Twin – AI-Powered Career Guidance Platform

- Built an AI-driven career guidance system that delivers personalized career recommendations based on user skills and interests.
- Helped students explore suitable career paths and learning resources through data-driven insights.

Technologies: Python, Machine Learning, AI Concepts, React.js, Node.js, MongoDB.
